

DODDANA GOUDA

Computer Science & Engineering Student | Aspiring Software Developer

Karnataka, India | 9019985842 | doddanagouda.bavital@gmail.com | [LinkedIn](#) | [GitHub](#)

CAREER OBJECTIVE

Computer Science and Engineering student with hands-on experience building and deploying full-stack web applications, practicing Data Structures & Algorithms in Python, and exploring AI/LLM-based tools. Seeking an internship or entry-level role in Software Development, Web Development, or AI/LLM engineering to apply and grow technical skills in a real-world environment.

TECHNICAL SKILLS

- Web Development: HTML5, CSS3, JavaScript, Responsive Web Design
- Programming Languages: Python, JavaScript
- Data Structures & Algorithms: Arrays, Searching, Traversal, Reversing, Array Manipulation, Problem Solving
- AI / LLM: AI fundamentals, applied LLM concepts, AI-assisted application development
- Tools & Platforms: Git, GitHub, VS Code

PROJECTS

FRONTEND PROJECTS

Personal Portfolio Website

Frontend Web Development

- Created and deployed a responsive portfolio website to showcase skills, projects, and learning progress.
- Built using core frontend technologies with emphasis on clean structure, usability, and responsive design.

Emergency Contact Form

Frontend Web Development

- Built a responsive emergency contact form using semantic HTML and CSS.
- Designed structured form fields with a clean, user-friendly layout and mobile-responsive styling.

DEPLOYED WEBSITES

Asset Manager System

Full-Stack Web Application

- Developed and deployed a web-based asset management system for tracking and maintaining organizational assets.
- Implemented asset records, search functionality, and maintenance tracking, including retirement/approval workflow concepts.
- Built as a complete full-stack application, covering both front-end interface and back-end logic.
- Live Demo: easy-webhost.lovable.app

Driving School Business Website

AI-Assisted Web Application

- Developed and deployed a multi-language business website for a driving training school, built using AI-assisted development tools.
- Implemented service listings, course details, instructor profile, testimonials, and an enrollment/contact form with WhatsApp integration.
- Designed a responsive, user-friendly layout supporting English, Kannada, and Hindi for wider local accessibility.
- Live Demo: shimmering-elf-a100b3.netlify.app

DSA & AI LEARNING

- Practicing Data Structures & Algorithms in Python, with current focus on arrays, searching, manipulation, and problem-solving patterns.
- Learning AI/LLM concepts and building practical AI-assisted projects to strengthen software development skills.
- Consistently solving programming problems to improve logical problem-solving ability.

EDUCATION

Bachelor of Engineering (B.E.) - Computer Science & Engineering

Expected 2028

Visvesvaraya Technological University (VTU)

ADDITIONAL STRENGTHS

- Practical, project-oriented learning approach
- Strong problem-solving mindset
- Consistent and self-driven learner
- Willingness to learn and adapt to new technologies
